Professional Summary
Machine learning engineer with 5 years of experience designing, training and deploying production ML systems. Comfortable owning the full lifecycle from data pipelines to model monitoring.

Experience
Senior Machine Learning Engineer, Northwind Analytics Mar 2022 - Present
- Built and deployed demand forecasting models with PyTorch and scikit-learn serving 3 million predictions per day
- Designed a feature store and training pipelines with Apache Airflow and PostgreSQL, cutting retraining time by 60%
- Containerised model services with Docker and deployed them on Kubernetes (EKS) in AWS
- Introduced MLflow for experiment tracking and model registry across 4 teams
- Mentored 3 junior engineers and led code reviews

Machine Learning Engineer, Contoso Retail Jul 2020 - Feb 2022
- Developed NLP models for product categorisation using Hugging Face transformers, improving accuracy by 14%
- Exposed models through FastAPI REST APIs with automated unit tests (pytest) and CI/CD on GitHub Actions
- Wrote SQL and Python ETL jobs processing 50 GB of data daily

Projects
Open-source resume parser: text classification with TF-IDF and logistic regression, 400+ GitHub stars

Skills
Python, SQL, PyTorch, TensorFlow, scikit-learn, Pandas, NumPy, Docker, Kubernetes, AWS, MLflow, Airflow, Git, Linux

Education
Master of Science in Computer Science, State University, 2020
B.Tech in Information Technology, City Institute of Technology, 2018
